Who Is On the Lord's Side?

that he was more concerned about whether he were on the Lord's side. There are indications that the German kai-

ser is more concerned on having the Lord on his side than about being on the Lord's

The natural tendency of man is to seek his own or the things of humanity, rather than the things of the Lord, and man is simply asking what some particular course will bring to him, or what it will bring to his time. The chief end of man in these days is not to glorify God. In this, grievous wrong is done. When a course of action is before one, the chief question should not be, "How will it affect me?" nor, indeed, "How will it affect my neighbor?" but "How will it affect God?"

The great need of the day is a new sensing of God-God at the beginning, God in the middle, God at the ending. The right thing for man is to ask where God is, and to go where he is. If man would do that many of his great theological questions would be settled. God manifests himself through his Word, and if men would go to the Word of God with these questions they would soon be substantially correct on all of them.

D. W. SWAFFAR one else. Nor can a man be on the For Sheriff-Lord's side if he does those things that the Lord hates.

If a man would know his duty to the Lord he should seek to know what the For County Cler Lord thinks of certain things, and here again he must take the Lord's judg- Court Clerkment through his Word, for he cannot know what the Lord thinks unless he knows his Word. As to particular actions, a man may be left to his own For judgment, but as to the great principles that lie at the root of things, the For Representative— Lord makes clear declaration in his Word. Does the Lord love a liar, brutality, deception? The remnant of For County Superintendent: God's image in man says at once, "No! No!" Does the Lord favor truth, liberty, kindness? That same remnant of God's image says, "Yes! Yes!" And consequently, the duty is clear, and he should stand for these things. We

The scene connected with our text was probably this: There was a golden calf and people were dancing about it. Moses stood aloof and made the cry, "Whose is on the Lord's side, let him come to me." According to the constitution and nature of man we make appeals to him as to his conscience, to his sense of duty or privilege, and he must make choice.

. What is it to be on the Lord's side? It is a natural inheritance from our sinning first parents that we will either be indifferent to God's commands or will positively refuse to obey them. Fundamentally, the issue is the same. In the case before us, the worshiper of the golden calf either continued his dancing and worship, or just endeavored to be neutral. A man must "come across:" he must take a positive stand. The position of a neutral is the position of the enemy of God. There are no neutrals in our country now as to Germany. Politicalsaid that a state of war existed, but day of each month.

C. G. BRADFORD, D. E. now the neutral is a pro-German. We must be out and out for the United States of America. A man's religious obligations could be illustrated by taking the two sides of an imaginary line, and to an imaginary line there can be only two sides. It is one thing or it is o'clock.
